CURRICULUM VITAE

Certified SAP Consultant
Area: SCM – Planning and
Manufacturing

SAP Functional Consultant / Business Analyst PP/PP-PI and QM

S/4HANA / Fiori / SAP implementation / roll-out project, process harmonization,
conceptual design, customizing, data migration, validation, testing, cutover, support

Production (PP) with Project system (PS) integration

GxP experience in pharmaceutical industry

SAP module

PP/PP-PI and QM end to end customizing → deep knowledge

SCM → deep knowledge

MM customizing → good knowledge

SD → good functional knowledge

General data

25 March 1982 Date of birth
Langenthal, Switzerland Place of birth

Business activities**Migros (M-Industrie), Zürich, Food industry**

SAP S/4HANA implementation

- Data preparation / mapping
- PP/EWM integration
- Implementation module PP-PI
- Fit/Gap analysis
- Food Solution integration

PP-PI core functionalities, master data migration, PP-PI/MM customizing, development specification, process design, batch management, production papers, SAP SolMan, key user training, Fit/Gap analysis, EWM integration

Jun. 2018 – today**CSL Behring AG, Lengnau BE, Pharmaceutical industry**

SAP S/4HANA Manufacturing support

- SAP S/4HANA Roll Out project
- Data preparation for migration
- MES interface / process design

Blueprint and process design, test script creation, user acceptance testing coordination

Mar. 2018 – Mai 2018**General Electric, Oberentfelden, Transformer station**

SAP Functional Consultant / Business Analyst

- SAP Roll Out project CH / FR
- PP with PS integration
- Implementation module PP and QM
- Data migration primarily PP and QM objects
- Customizing, testing and training

PP/QM core functionalities, master data migration, production (PP) integration with project management system (PS), PP/QM customizing, PP/MM integration, scheduling, process design, production papers, key user training, subcontracting

Mar. 2017 – Nov. 2017

Zehnder Group AG, Gränichen, Metal industry

SAP Functional Consultant / Business Analyst

- principal supply chain for materials / information flow and materials replenishment and scheduling
- Responsible for SAP PP implementation international rollout
Châlons-en-Champagne (FR), Lahr (DE), Bolesławiec (PL), Vaux-Andigny (FR), Motala (SE), Reinsdorf (DE), Zwolle (NL)

PP core functionalities, scheduling and replenishment management for principal supply chain model, bi-directional MES interfaces, KANBAN internal/external, master data migration, IDoc interface setup, PP/MM customizing, PP/MM integration, development specification, process design, scheduling, PP/variant configuration, labels, process design, batch management, production papers, Mobisys integration, repetitive manufacturing, SAP SolMan, key user training, subcontracting, Fit/Gap analysis, serial numbers

Oct. 2012 – Feb. 2017

Bio-Rad, Cressier, Pharmaceutical industry

SAP Functional Consultant / Business Analyst

- Module QM implementation
- Process design and realization
- Customizing, testing and training

QM core functions, QM customizing, inspection lot, inspection plan, inspection characteristics, batch management, quality notification, QM interface, development specification, process design

Mar. 2011 – Sep. 2012

CSL Behring AG, Bern, Pharmaceutical industry

PP-PI core functions, QM core functions, process harmonization, integration tests, key user training, test scrip validation, tests validation, documentation, PP-PI customizing, process design, MES interface, QM interface, development specification, batch management, batch traceability, toll manufacturing

Jun. 2006 – Feb. 2011

SAP Functional Consultant / Business Analyst

- Module PP-PI and QM
- Analyses, counsel of business processes and the realization
- Consulting in process improvement

Nov. 2008 – Feb. 2011

Business Analyst for centralization

- Location responsible for PP-PI (business processes)
- Process harmonization and consolidation of separated SAP systems
- Conception, customizing, testing, training and cutover
- Responsible for data migration (Master and Movement data)
- Collaboration by global process design and the realization in international team

Jan. 2008 – Oct. 2008

SAP PP/QM Key User

- Business lead for process design and the realization
- Implementation of new system functionalities
- Local responsible for the global process realization (CH, DE, US)
- Master data PP harmonization
- User authorization concept and realization

Jun. 2006 – Dec. 2007

Education

SCM610 Delivery Processes

Sep. 2013

SAP Solution Consultant SCM – Planning and Manufacturing

Nov. 2008 – Dec. 2008

TSCM 42 Planning/Manufacturing II

Dec. 2008

TSCM 40 Planning/Manufacturing I

Nov. 2008

SCM240 Production scheduling

Nov. 2007

SCM340 Process manufacturing (PP-PI)

Jun. 2007

French, 1 month intensive course

Mai 2006

University of applied sciences, Solothurn
 Diploma business engineering UAS
 with a major in controlling

Oct. 2002 – Feb. 2006

Sacom AG, Brügg
 Apprenticeship electronics engineer

Aug. 1998 – Oct. 2002

Languages

Native language

German

Fluently

English

Knowledge

French

Personal profile

SAP implementation / roll-out projects
 International activities

Professional interests

Kite surfing, Running, Hiking

Hobbies
